RM11638 - Internet, Software & Technology — Southern California

Click HERE to contact us about this business!

This software is a competitor to Salesforce but is less expensive for selected industries. The software package is licensed to the customer with no monthly fees, only a small annual charge for updates/maintenance. They have also developed a subscription program that would cost much less than Salesforce, but they have not launched that program yet. The seller has only devoted part time to marketing and wants to enjoy his retirement as CIO of a major firm.
