

SA11513 - Manufacturing

Northern California - East Bay

[Click HERE to contact us about this business!](#)

The company specializes in micro-assembly and process development services for microelectronics industries, including semiconductors, medical devices, solar technology, and more. Its core services include fast-turnaround prototyping, process development, and low-volume manufacturing, with expertise in chip attach, wire bonding, and soldering. Clients range from Silicon Valley startups to major organizations such as Google, Facebook, & NASA. Future growth opportunities include scaling to medium-volume manufacturing, entering the EV battery sector, and expanding assembly capabilities. The company stands out for its ability to deliver services within 1-2 days and ITAR registration.
